SUMMARY

Motivated Full Stack Web Developer and IT Engineer with hands-on experience in frontend, backend, and database technologies. Skilled in building scalable applications using modern frameworks and tools with strong problem-solving and collaboration abilities.

SKILLS

- **Programming Skill:** JavaScript, React.js, Node.js, Express.js, PostgreSQL, MySQL, HTML, CSS, Bootstrap, java (basic), python (basic), Api
- **Tools:** Git, GitHub, Postman, VS Code

PROJECTS

AgroConnectMitr (PERN Stack)

- A full-stack web app to connect farmers with agricultural workers. Developed role-based dashboards, job posting and application modules.
- Used React for frontend, Node.js and Express for backend APIs, and PostgreSQL for data handling.
- Implemented JWT authentication and respon- sive design.

Recipe Sharing Platform (PERN Stack)

- A responsive web platform for users to post, edit, and view cooking recipes.
- Built with React, Node.js, Express, and PostgreSQL. Features include secure login, CRUD operations, protected routes, and styled UI using Bootstrap.
- Focused on clean UX and performance optimization.

INTERNSHIPS

Web Development Intern – EY GDS   Jan 2025 – Feb 2025

- Completed professional MERN training and contributed to internal tools.
- Developed interactive dashboards and admin panels using React.js and MongoDB. Integrated REST APIs with Express and Node.js.
- Participated in daily scrums, sprint demos, version control via Git, and team collaboration using Agile methodologies
- EY GDS - OfferLetter
- EY GDS - Certificate
